- The PL-H30M scissor lift is a free standing, 3.0Ton capacity, portable scissor lift.
- The PL-H30M scissor lift is the perfect lift for commercial quick service bays, body shops, and wheel service specialists that need extra lifting height.
- This portable lift easily raises a 3.0 Ton car, truck, or SUV to a comfortable working height and does not require the operator to position arms under the lifting points of the car.
- The vehicle is driven over the scissor ramps and the operator simply positions the heavy-duty rubber block assemblies under the correct lifting points.
- The operation is very quick and the chance of any damage to the underside of the car is minimal.
- The open center on one side, allows easy access under the vehicle.
- The lift is supplied with wheels and a draw bar, should you need to move the lift.
- No pneumatic connection required.
